“WSSEF Participation Stipend” Funding Assistance

April 1 & 2, 2011

Each year, for the past 54 years, students' grades 1 – 12 gather for the annual Washington State Science & Engineering Fair (WSSEF). In order to assist a greater number of students to participate from throughout Washington, the WSSEF is pleased to announce a stipend program. The funding is offered to those applying and meeting the criteria.

A minimum of five students sponsored by a teacher, school or school district.

Submit only one application per group.

Funding requests can include travel expenses, presentation supplies, lodging, teacher / student supervisors and tourist excursion activity fees.

Briefly describe how you will use these funds to travel to WSSEF:

Applications are reviewed by a WSSEF committee and awarded based upon need. A total stipend award cannot exceed \$250 per group. Funding checks are available following registration confirmation and participation at WSSEF.

"Celebrating 54 Years of Encouraging Young Scientists and Engineers (1957 – 2011)"
